Boats are expected to be ready to cover at time of haul out. If not indicate on reverse side.

Boats are shrunk wrapped in order of haul out date unless we are told not to cover until notified, then it will go back into the line up on next available date behind those that are already on the waiting list to be covered.

Weather plays a factor when boats are covered. Larger boats cannot be covered in high wind. Most boats can not be covered in the rain.

The crew will take down canvas and leave in cockpit when we cover the boat. If you want to pick up your canvas request a shrink wrap door so you have access to get. We will NOT store canvas in office.

Brokerage boats require a shrink wrap door for showing.
